REPORT

OF THE

SAINT JOHN RELIEF AND AID SOCIETY.

CHAPTER I.

AN ACCOUNT OF THE FIRE.

No city in America has suffered more severely from destructive fires than has Saint John. Beside the large fires that occurred in its earlier days, many of our citizens will remember those of January, 1837 and August, 1839, followed by that of March, 1841, when so much property was destroyed and so many lives lost. But these were insignificant when compared with the calamitous and fearful conflagration of the 20th June, 1877. In a relative sense this may be said to have been the most destructive fire of modern times. It commenced about two o'clock, in a small building in "York Point," and in the almost incredible short space of thirteen hours consumed 1612 houses, leaving over 246 acres or two-fifths, being the most valuable part of the city, in ashes. Nearly all the public buildings were burned,—the Custom House, Post Office, Savings Bank; all the Banks and Banking Houses except the Bank of British North America; the City Hall, Academy of Music, Temperance Hall, St. Malachi's Hall, Victoria School House, Wiggin's Male Orphan Institution, Home for the Aged, Dramatic Lyceum; the Victoria, Royal and all the larger hotels. The churches burned, were Trinity, St. Andrews, the Centenary, Germain and Mission, methodist churches; Germain and Leinster street, baptist churches; St. James, St. Davids, Christian and Reformed Presbyterian. The printing offices destroyed were the Globe, News, Freeman, Watchman, Telegraph, Christian Visitor and Religious Intelligencer; only one office escaped, that of the New Dominion. All the Law, Insurance, Exchange, Express and Telegraph offices, and all the Law Libraries in the city were burned. All the business portion of the city lying on the dock and water fronts; all the wholesale stores and warehouses with their contents of flour, grain, beef, pork, tea and sugar, in fact all the larger stocks of groceries and the entire stock of dry goods, hardware, furniture, etc. were swept away. The value of the property consumed has been estimated at \$28,000,000—the number of persons left homeless was 15,000.

CHAPTER II.

ACTION OF THE AUTHORITIES.

Toward morning, on Thursday, when the fire had in many parts of the city burned itself out, and the people were assured that it was under control, hundreds who had for hours been looking hopelessly over the ruins of their homes were compelled to seek food for themselves and their little ones. Many were given shelter by their more fortunate neighbors and friends. This protection and kindness was not confined to any class; without exception doors were thrown open and a welcome given to all who said they had been burned out. With all this the morning found thousands of helpless, homeless women and children huddled together on King Square and other vacant places, and in barns and sheds. But at this hour many of our active, earnest citizens, the men whose ears are ever open to the call of charity, who work on every occasion, who had themselves lost both homes and business places,—more mindful of the suffering of others than of their own losses, were busily engaged providing food and shelter for the destitute. Among the first contributions received was that of Alexander Gibson, Esq. Realizing that prompt relief was required, this gentleman visited the adjoining towns of Portland and Indiantown early on the 21st, and from the wholesale stores made purchases of flour, beef, pork, biscuit, groceries, etc., and had the same carted to the skating rink, the depot for distribution. The amount of this earliest contribution was something over thirteen hundred dollars.

Messrs. J. & W. Shaw, bakers, of Waterloo street, also deserve special mention. Although, through their customers, they were heavy losers, they felt it their duty to render such assistance as laid in their power. From their extensive bakery, which had escaped the fire, they supplied, gratuitously, to the sufferers, in the early morning following the fire, between *seven hundred and one thousand* loaves of their bread; and, to make the gift more acceptable, they procured from the unburnt grocery stores some \$125 worth of cheese and other groceries, which was distributed with the bread.

A public meeting was called by His Worship the Mayor, at which committees were named; to one was given the task of providing food, another clothing, to another shelter, and as will be seen by the list following, every means was taken to provide for the exigencies of the day, and so far as could be done anticipate the demands of all.

Office of the Secretary at the Grand Jury Room, Court House, where all information regarding the sub-committees may be obtained.

The Market Building, Skating Rink and Government Sheds were placed at the disposal of the Committee; the railway authorities telegraphed, offering the Car Sheds and other buildings in their charge. The places named with what tents could be procured gave shelter to the people on the first night. Many who had escaped to Carleton were lodged in the City Hall, and with the kind hearted people of the west side.

The city authorities and committees were prompt in their endeavors to meet the demands of this terrible emergency. Volunteers and troops were called out. Special police were sworn, and every means taken to allay the fears of the anxious, and protect the valuable property lying exposed.

CHAPTER III.

EXPRESSIONS OF SYMPATHY.

It would be impossible adequately to express the deep debt of gratitude that the citizens of St. John feel they owe to those who contributed to relieve the wants and suffering consequent on the disaster to their city by fire of 20th June, 1877. Not alone for the material aid so generously sent them, but for the words of love, sympathy and cheer that came from every portion of the world. So long as our city lasts this gratitude will fill our hearts. We cannot but recognize in the spirit which prompted such unbounded beneficence that pure charity that knows not creed or country.

WILLIAM H. WELDON, W. P.

PORTLAND, ME., June 26th, 1877.

HON. S. Z. EARLE, Mayor of St. John, N. B.

Dear Sir,—The bearer, W. H. Millikin, Esq., a member of one of our large mercantile houses,—Deering, Millikin & Co., and I may add a generous donor to the fund now being raised here in aid of your hapless population, is about visiting St. John, and I have requested him to call upon you and acquaint you what we are doing here, and ask of you suggestions as to whether we should send you the balance of our contributions in money, or expend a portion thereof in the further purchase of articles which you stand in need of. That would depend I suppose, upon whether those articles could be purchased at better advantage here than with you.

We had ready last evening some twenty-five boxes and bales of clothing, collected by our ladies to forward you, but unfortunately the steamer was so overloaded that they could not be taken. We shall send them by the next conveyance possible.

I am, very respectfully,

W. M. BUTLER, Mayor.

BANGOR, MAINE, June 28th, 1877.

S. Z. EARLE, Esq., Mayor, St. John, N. B.

Dear Sir,—In absence of Mayor Hamlin I opened your telegram of this date. I met Mr. Graham and his party at the E. & N. A. R. Station and accompanied them to the Western Depot, where they all "ate and were filled." Our fellow-citizen, Mr. B. S. Naye, who is Proprietor of the Station Restaurant, declined to receive any remuneration for his supper, and so there was little for us to do but to welcome the "Little Wanderers" and bid them "God Speed." The party left for Boston at 8 p. m., and will, I hope, find a comfortable home in Boston until their own homes, so suddenly taken from them, are restored. Be assured that we are all gratified to have you call on us for anything we can do for your distressed people.

Dear Sir,—I have much pleasure in transmitting you herewith check for \$245.00, being the contribution from the mining operatives and other residents of Westfield, in aid of the sufferers by the late disastrous fire in St. John. I may add that the generous aid extended by your citizens to the sufferers by the terrible disaster at the Drummond Colliery 4 years ago—apart from other considerations—has deserved this recognition of your claim on our sympathy.

Owing to the long continued depression in the coal trade here, our contributions to the relief of your great calamity are much less than they would otherwise have been.

I am dear Sir, your ob't servant,

JOHN McDOUGALD.

G. A. MACKENZIE, *Treasurer St. John Fire Relief Fund.*

As in the report it is proposed to publish the letters and telegrams that came to hand, it would almost seem invidious to particularise any act from among the thousands that call for our gratitude; yet, we cannot forbear here recording the fact that the United States Government in its noble generosity was pleased to place its Revenue Cutter "Gallatin" at the disposal of the Boston Relief Committee to convey the goods collected in that city to the sufferers in St. John. This ship made two voyages from Boston to St. John laden with goods, the free offering of our generous neighbors of that city. The brotherly words of cheer and hope given us by the committee delegated from Boston to accompany the supplies, and by the commander and his officers when in our dire need we were despondent, will ever remain in the memories of all who had the honor to meet those gentlemen.

CHAPTER IV.

TEMPORARY MEASURES OF RELIEF.

The authorities of the city had an arduous task to perform. Early as the Public Meeting was convened it was anticipated by our kind neighbours abroad. At this meeting letters were read from the Mayors of Halifax, Moncton, Bangor and other near places. The unbounded sympathy of all who received the sad news went out towards us. They were as quick to anticipate all our wants, and from the wording of letters and messages, as kindly anxious to avert and alleviate suffering as were our own people. Every succeeding minute brought words of condolence and proffers of aid from societies, corporations, states, and cities. Among the first to arrive was one from Her Gracious Majesty Queen Victoria, expressing sympathy with the sufferers. For days and weeks railways and steamboats continued to pour in to us their freights of goods sent from the cities and towns of the United States and the Dominion. In some instances the supplies were delivered at the rink free of charge, in all cases they were free of freight charges, and the Dominion Government directed its officers to pass all contributions for the sufferers free of duty. Valuable assistance was rendered the society through the labors of the Ladies Committee at St. John Church, the Ladies of the St. Vincent and Sacred Heart Convents, and the many private committees in Portland and the city. To receive and assort the supplies was a great responsibility for many weeks. Messrs. Wm. Magee and James Reynolds, the committee appointed for this purpose, devoted their entire time to the task. The goods as they arrived were stored in the Rink and Railway Sheds, and

were issued to the orders of the committees of the furniture, clothing and provision departments, and were distributed by these committees to the sufferers. Temporary kitchens were erected, and aided by the large supply of cooked food that was received, the committees were enabled to meet the demands of all. For the first few days the imperative necessity then was that all should be fed, and so far as could be done, provided with bedding and clothing. These necessities were given to all applicants on their own statements, as in the presence of such abundance it was a sacred trust that no one should be left in want. But as early as the 23rd June, something like check and system had already been established, goods and provisions being issued by cards containing names and addresses of applicants. On the Monday following the fire cards for provisions were presented at the stores in the rink asking for food for 10,000 persons. It is not presumed in the report we here attempt to make, that a full account can be given of the actual disposition that was made of all the goods and supplies that came to hand during the first hours of the calamity, but the directors are pleased, in gratitude to the generous donors to be in a position to say that from the day of the formation of the "Relief and Aid Society," on which an account of stock was taken and delivered to the Society's care, that that trust with all that came to hand thereafter in goods and monies are fully accounted for.

CHAPTER V.

INCEPTION AND ORGANIZATION OF THE RELIEF AND AID SOCIETY.

At a meeting of the Citizen's Executive Committee, held at the Court House, on the 27th June, Mr. C. G. Trusdell, General Superintendent of the Chicago Relief and Aid Society, was presented to the meeting—he having been sent here by the Citizens of Chicago, tendering his aid, experience and assistance to the citizens of St. John in perfecting their relief organization; and at a subsequent meeting of the Directors, held at the Court House on 28th June, Mr. Trusdell, at the request of the Board, explained his plans and views, submitted his blanks, forms and system, with his experience for the past ten years in the work of relief in Chicago. The advice and suggestions which the lengthened experience of Mr. Trusdell enabled that gentleman to offer to the Committees, were of great value, and it is but an act of common justice to say, that a debt of gratitude is due to him and to his city for the kindness which prompted his visit to us. It was the means of conveying at the right time the special kind of information which the state of affairs demanded, and helped us to

adopt at the outset systematized plans which we would only have adopted after, perhaps, many mistakes, much inconvenience and great waste of money.

In view of the certainty that the labor and work of the directors and members of the several committees, as already appointed, must extend over many months, the meeting being fully satisfied that the system, as presented by Mr. Trusdell, was, with certain modifications, the best that could be adopted, it was resolved that the "Committee be managed according to the plans submitted, and that it be named THE SAINT JOHN RELIEF AND AID SOCIETY."

At an adjourned meeting, held at 8 p. m., in the Court House, on the same day, the action of the previous meeting was confirmed, and the following officers and committees were appointed:—

JOHN KERR.

At this meeting it was resolved that the Mayor be directed to issue a proclamation announcing the formation of the "Saint John Relief and Aid Society," and requesting that all funds and supplies for the fire sufferers hereafter be sent to the St. John Relief and Aid Society. On the 30th day of June, His Worship Mayor Earle transferred to C. H. Fairweather, Treasurer, the moneys remaining in his hands at that date, to be deposited and secured as directed by Resolution of Board of Directors on 30th July, 1877.

On the 16th day of July, 1877, at the request of the citizens, a public meeting was called by His Worship Mayor Earle, held in the Mechanics' Institute, to enquire into the work of the Relief and Aid Society. The meeting was composed of nearly all the leading business men, merchants and professional men of the city, and it fully sustained and approved the work and action of the society by the following resolution:—

Moved by James Domville, Esq., M. P., seconded by T. B. Barker, Esq.

"Resolved, That this meeting regards with great satisfaction, the onerous and able services of General Warner and the other members of the citizens' committee, and beg to return them, on behalf of the City of St. John, their sincere thanks, and heartily confirm them in their office."

Carried unanimously.

Public notice was given in the city papers of the intention of the Society to ask for an Act of Incorporation, and the Provincial Legislature during its session in 1878, was pleased to incorporate the St. John Relief and Aid Society.

SAINT JOHN RELIEF AND AID SOCIETY.

The subjoined Act to incorporate the Saint John Relief and Aid Society was passed at the last Session of the Legislature.

An Act to incorporate "The St. John Relief and Aid Society."

Whereas, by the fire which occurred on the twentieth day of June, in the year of our Lord one thousand eight hundred and seventy-seven, a large portion of the City of Saint John was burned, and a great number of persons were rendered homeless and destitute;

And whereas, the citizens of this and other countries contributed large sums of money, and large quantities of goods in aid of the sufferers by the said fire,

and for the relief of the destitution and suffering consequent thereon, with the sanction, and under the authority of a general public meeting of the citizens of Saint John ;

And whereas, the said contributions have been distributed by a Committee of the citizens of the said city under the name of "The Saint John Relief and Aid Society," and the affairs of the organization necessary for such distribution, have been administered by the said Committee ;

And whereas, among the sufferers by the said fire are many persons of advanced age for whom permanent provision will have to be made ;

And whereas, for the better administration of the affairs of the said society it is advisable that the same be incorporated ;

Be it therefore enacted by the Lieutenant Governor, Legislative Council and Assembly, as follows :—

[There shall be exempted from the operation of this Section—(1) All sums of money and all goods subscribed or contributed for the purposes aforesaid, but forwarded or given to any person, or private corporation or body, in his or its private capacity, to be distributed as he or it should see fit. CHAPTER VI.

ACTION OF THE RELIEF AND AID SOCIETY.

In view of the responsibility of the Society to the public, not only for the very large sum of money entrusted to its care, but for the more serious duty of expending and distributing that trust fairly and equitably, a statement of the Society is here submitted.

In accordance with the resolution of the Citizen's Committee of the 29th June, 1877, the Relief and Aid Society assumed the care of the sufferers, and the charge of the goods, stores and supplies on hand at that date. At this juncture the Society was fortunate in being able to induce General Warner, United States Consul, to accept the position of General Superintendent. This gentleman, whose name will long be held in kindly remembrance by the citizens of Saint John, had from the dawn of the 21st June, devoted all his time to the relief of the sufferers, and was in possession of all the details and facts connected with the work already done.

The Society had also, as before referred to, the advantage of beginning its operations under the advice of Mr. Trusdell, yet, there was for the first few days necessarily some confusion and disorder, but the energy shown by the several committees, system and order soon followed. An account of stock in the Warehouses was taken. Departments of clothing, furniture and provisions were established, from which goods were issued on cards or orders made to applicants after proper enquiry and visitation. Goods were issued from the Warehouses only on requisitions from the several departments.

As the winter approached, and the owners of the Rink were desirous of obtaining possession of the building, it was resolved to erect temporary offices on the King Square, it being impossible to obtain rooms in the city. At this time the stock of provisions being exhausted, contracts for the supply of groceries, furniture, bread, meats and coal were made. This was found to be more economical—making a large saving in rent and clerk hire. There being a large stock of dry goods and clothing, this department was retained.

Subjoined are the Bye-Laws, Rules and Regulations enacted for the general guidance of the Society in its decisions and judgments on the various cases and applications placed before it.

The forms and blanks that follow will show what precautions are taken to guard against injudicious distribution, the duplication of relief or pretended want.

GENERAL RULES.

RULE 1. The object of this Society is to afford assistance to persons of advanced age who may have been deprived of the means of support by the fire of the 20th June, 1877, as well as others who from sickness or destitution consequent therefrom may require the same, and without, positively, limiting itself to any one class, to discriminate in favor of those in whom habits of temperance, industry and thrift give promise of permanent benefit from the aid furnished, and shall not embrace in the sphere of its operations such as are the proper subjects for the Alms House.

RULE 2. Relief is only to be given after a personal investigation of each case by visitation and enquiry by an authorized visitor.

RULE 3. Relief to be given in proportion to immediate needs.

RULE 4. Relief to be discontinued to those who manifest a disposition to depend on alms rather than their own exertions for support.

RULE 5. Able-bodied men are not regarded as proper subjects for relief.

RULE 6. Applicants having claims on other charities are to be furnished with a card directing them to the same, stating the amount of relief received from this Society.

RULE 7. It is an absolute condition of relief by this Society, that all persons receiving aid are not to ask alms or assistance of the public, either on the streets, at residences or places of business.

RULE 8. No loans shall be made from the funds of this Society.

RULE 9. As a rule, relief to be administered in supplies, or orders for supplies rather than in money.

RULE 10. In all cases when persons or families have been aided by this Society on account of want of employment, and are by the Society offered situations adapted to their condition in life with aid to reach such situations, which they refuse to accept, no further relief shall be extended to them.

BYE-LAWS.

1. Any person may become a member of this Association by being balloted for—five black beans excluding.

2. The Annual Meeting of this Society shall be held in the City of St. John, on the second Monday in May of each and every year, at such place and time as shall be specified by notice from the Secretary of the Society, to be published in at least one of the city papers three days before the time of such meeting.

3. The members of this Society present at such Annual Meeting, shall select from their number a Board of Directors, consisting of fourteen, including His Worship the Mayor, as provided by Act of Incorporation, to hold office until the next annual election, or until their successors are chosen.

4. The Board of Directors shall have power to fill vacancies at the Board from members of the Society.

5. The Board of Directors on being chosen at said Annual Meeting shall select one of their number as President of said Board, who shall be the presiding officer of the Board, and the Chief Executive Officer of the Society, and shall have the general charge of the business of the Society, also authority and control of the subordinate officers.

6. The Board of Directors shall hold meetings whenever notified by the President or Secretary, and any five members of said Board shall constitute a quorum.

7. The Board of Directors shall select a Secretary and Treasurer. It shall be the duty of the Secretary to keep the books and accounts of the Society; to keep a record of the proceedings of the meetings of the Society, the Board of Directors and the Executive Committee.

8. The duty of the Treasurer shall be to keep a correct account of all moneys received and expended by the Society.

9. The funds of the Society, as regards the principle part thereof, not required for current expenditure, shall be kept on deposit in Chartered Banks or invested in Dominion or Provincial Securities. Such deposits shall be in the names of the President of the Society, the Mayor of the City of St. John, for the time being, and the Treasurer of the Society. They shall be subject to withdrawal upon the order of the Board of Directors, and shall be withdrawn from the Banks as required by the signatures of the Treasurer and one of the other two officers in whose names they are deposited. Such amounts as may be required from time to time to meet current expenditure shall be kept on deposit in a Chartered Bank upon open current account, and shall be drawn by checks signed by the Treasurer. For current expenditure authorized by the Board of Directors (or the Executive Committee), the President, or in his absence the Chairman of the Executive Committee shall make orders upon the Treasurer. Such orders to be countersigned by the Secretary.

10. The Board of Directors shall meet on the first Monday of every month, at the office of the Society, at 4 p. m., and at such other times as the President may order.

11. The Board shall have power to select any four of their number who shall constitute an Executive Committee, the Chairman of which shall have power, in the absence or sickness of the President, or when delegated by him, to draw checks upon the funds of the Society.

12. The failure of any person, chosen as a Director, to attend three consecutive meetings without satisfactory excuse to the Board, shall be deemed sufficient cause for the vacation of his office by a vote of the Board.

13. The Society may be called together at any time by order of the President, or it may be called on the requisition of five members to the President. If the President should fail to comply with such requisition, any five members may call the meeting.

14. The Bye-Laws may be amended at any Annual Meeting or at any special meeting, on giving notice in writing of the proposed amendment.

15. All notices of meeting shall be sent by post to members, and mailed at least forty-eight hours before the time of such meeting.

CHAPTER VII.

SHELTER.

One of the most important committees was that of Shelter, involving the expenditure of a large sum, and requiring on the part of the members, a constant attention and supervision.

For days after the fire, many persons found temporary shelter in sheds, in warehouses and in the Rink—others had obtained places in the suburbs, or were crowded in with friends; in some instances whole families occupying but one small room—a dangerous state as being likely to engender disease, as the warm weather approached. Thus it became imperative that some speedy action be taken to relieve those who were entirely destitute. Through the kindness of the officers of the Imperial and Dominion Governments, the committee had placed at their disposal a large supply of tents; of these some were loaned to families, others were put up on the Squares and other open places.

With the consent of the Common Council, it was resolved to erect houses on the Squares. Tenders were asked for and contracts made, and in a short time 80 houses were built on Queen Square and 188 on Barrack Square. These 268 rooms gave shelter to 269 families, numbering in all 1,150 souls. The houses were entirely separate, were 16x16 feet; had double walls—the spaces filled with lime and sawdust; had well made doors, with double or storm windows; separate wood or coal sheds; water closets and water convenient.

The demand for shelter still continuing, the Common Council granted permits for the erection of houses on the "Battery Grounds." The Executive Committee agreed to assist those who had obtained permits or leases, with an amount of money to aid in the purchase of lumber and material to some extent for building.

Another form of assistance was that of grants of money to parties who had freehold or leasehold lots, who, having lost their houses, and having little or no insurance, were at the time unable to build, and needing shelter proposed to erect ells or wings on their lots. To those persons grants of money were made to assist them in this way, to provide shelter for the winter.

RESOLUTIONS

PASSED BY THE

EXECUTIVE COMMITTEE OF THE RELIEF AND AID SOCIETY

To regulate the granting of aid to persons having freehold or leasehold interest requiring assistance to build.

- 1st.—That no such building shall be within twenty-five feet (25) from the street.
- 2nd.—That intoxicating liquors shall not be sold on the premises.
- 3rd.—That plans of the Lot and Building be submitted by the Shelter Committee with their report.

I, acknowledge having received from the Saint John Relief and Aid Society the sum of to aid me in erecting a building on the lot on street, owned (or possessed) by me, according to the sketch plan annexed to my application to the Shelter Committee of said Society.

I have informed myself of the conditions on which such grant is made, as embodied in the Resolutions of the Executive Committee of the Society printed above, and I undertake faithfully to expend the money for the above purpose and under the conditions referred to.

If the Building is not erected within from date, or is erected or used contrary to the said conditions, I agree to re-pay to MICHAEL W. MAHER, FREDERICK A. KING, JOHN H. PARKS and JAMES I. FELLOWS, the Shelter Committee of this Society, the amount so received.

Dated at St. John, N. B., this day of 187

CHAPTER VIII.

SPECIAL RELIEF.

The Special Relief Committee was formed to meet and reach the wants of that class of sufferers by the fire, who from age and infirmity, or whose previous condition in life unfitted them to endure the exposure and risk from the throngs who crowded the depots at the rink, as well as for a right consideration for such sufferers by the fire, who, previous to that event, were in comfortable circumstances, and so suddenly reduced, suffered much privation and distress. The necessity of making personal application (with many a very painful task) was dispensed with. Suitable blanks were prepared and given to responsible persons who might ask for them—

these applications were submitted to the committee at its meetings, which, for some weeks, were held daily. In cases where the applicants were unknown to the members of the committee, they were referred to a visitor for a report before a decision was made.

The principal issue made by this committee was in money to relieve the general wants of the family.

A proportion of the special work of relief consisted in supplying sewing machines to destitute sewing women who had lost their machines, or in furnishing with machines those, who from changed circumstances, would be enabled by the use of one to assist in the support of their families. By an arrangement with the different sewing machine companies, a large discount was allowed on the orders made by the Society. In addition to the aid given towards purchasing machines, money was given in various sums to enable tradesmen and others to purchase tools to resume their several occupations. In some cases the committee made special orders on the departments at the rink. Re-applications were sometimes made by friends of sufferers, but the nice consideration for the wants of the many, who were well known, frequently prompted the chairman to suggest an enquiry and a new grant. These were always met by the Executive with a measure of that sympathy and kindness that prompted the request. James A Harding, Esq., was chairman of this committee from the formation of the Society until May, 1879, during this interval he was not absent from any meeting. From his long and intimate knowledge of the people, his advice and counsel has been of the utmost value to the Society, and it feels that the citizens owe to this gentleman a large measure of thankfulness for his untiring attention and kindness to all in distress. The Society, at its annual meeting in May last, learned, with much regret, that Mr. Harding declined being re-elected on this committee.

COMMITTEE OF SPECIAL RELIEF.

SPECIAL RELIEF.

1. It is not designed that this department shall supercede, supplement, or in anywise interfere with the Relief Work of the General Society. It is meant exclusively to provide for cases which it is not possible to meet satisfactorily in the ordinary way.

2. All Pastors of Churches, of whatever name, and all accredited representations of Relief Organizations of every form, are persons duly authorized to endorse applications, and their endorsements will receive full consideration. But the committee particularly request as a means of greatly facilitating their work that all applications so far as possible be made through these channels. And they further urge that Pastors of Churches appoint visitors, whose duty it shall be to investigate the cases of those who apply and to present such needy and deserving persons as will not be likely to make their wants known.

3. All applications shall be made upon the printed form to be supplied by the committee. Forms can be had on application.

4. The head-quarters of the committee will be at the Sheriff's Office, at the Court House, St. John, where all applications, when duly certified, shall be presented.

5. To avoid misapprehension as to the powers of the committee it is desirable to state that no application for money to build up any form of business destroyed by the fire can be entertained, and that as a general rule, relief by payment of money is only extended in a few exceptional cases.

CHAPTER IX.

SICK AND INTERMENT.

This committee was appointed to afford aid and relief to the sick and disabled, as well as to make preparation to meet and avert the sickness and disease that might be expected to arise, as from the densely crowded state of the houses after the fire, families were compelled to occupy, in many instances, one small imperfectly ventilated room.

A physician was employed by this committee—Dr. Daniel. A report of the cases attended by him is appended. This gentleman made frequent visits to all the buildings erected by the Society. A sum of money was granted to the General Public Hospital to meet the increased cost of maintenance of patients from sickness and injuries consequent on the fire.

Contracts were made with undertakers who on orders from the Society or committee furnished a coffin and hearse, or coach, with such other attendance as the nature of the case demanded.

BOARD OF HEALTH OFFICE, January 24th, 1878.

To the Chairman of Sick, Hospital, and Interment Committee :—

Sir,—I have the honor to transmit herewith the accompanying report of my work during the months of October, November and December.

I am unable to furnish a reliable report of cases attended during the months of July, August and September, as I did not preserve any record of my attendance.

Respectfully, your obedient servant,

J. W. DANIEL, M. D., *Sanitary Officer*.

TRANSPORTATION.

The Transportation Committee, under the management of Mr. Harris Allan, assumed the care of receiving and considering applications of all who desired to be assisted to leave the city. This required much discrimination to prevent imposition. This committee was dispensed with after a few months.
